# Installation Guide

- ## Installation

1. Thread the power cord through the hole of hook and rotate the hook into 3/4" hole on fixture tightly.
2. Tighten the M4x8 screw beside the hook.
3. Connecting the wire according to the wiring diagram then installation is done.

1. Make wire connections according to the wiring diagram.
2. Thread the led fixture onto the  $\frac{3}{4}$ " NPT conduit and secure the M4x8 screw.

Color	Function
Black	Line
White	Neutral
Green/Yellow Green	Ground
Purple	
Gray	

Note: Two dimming wires in the driver box
