CCT SELECTABLE

(Standard Model)

(EM Model)

CCT Selectable Linear Strip for Commercial Applications

LED Linear Strip luminaires are one of Topaz's most adaptable products, finding their way into healthcare facilities, offices and retail applications to name just a few. Adding to their versatility, our CCT Selectable models allow the choice of 3 color temperatures to be selected upon installation, matching a variety of environments or applications. Motion sensor models come pre-programmed and will be suitable for most environments but can be adjusted to cover various scenarios. Emergency battery backup models are also available and provide up to 90 minutes of illumination in the event of a power outage.

FEATURES

- 3 CCT Selectable switch: 3500K, 4000K, 5000K
- Press to release buttons allow for quick tool-less access to the wiring compartment
- Models include (2) ½" knockouts on each side panel
- Designed for surface mount with the included J-box cover plate
- End-to-end mounting and suspension mount kits sold separately
- Suitable for mounting up to 15'
- Emergency battery backup and motion sensor models available

SUGGESTED APPLICATIONS

- Ideal for use in new construction or remodeling of commercial facilities.
- Offices, healthcare facilities, educational institutions, and retail
- Suitable for use in closets, compliant with NFPA 70, NEC section 410.16 (A)(3) and 410.16 (C)(5)

LED Linear Strips

CCT SELECTABLE

GENERAL SPECIFICATIONS

Input Voltage, Frequency: 120-277V, 50/60Hz
Power Factor, THD %: <0.9, >20%
Dimmable: 0-10V¹
Efficacy: 140 LPW
Minimum CRI: 84
Functional Life (L70): 50,000 hours
CCT: 3500K | 4000K | 5000K

Location Rating: Damp
Ambient Operating Temperature: -4°F to 104°F
Mounting Options: Surface mount ready; End-to-end mounting and suspension mount options sold separately
Quick connectors, mounting hardware and 8-inch steel safety cable included

Choose your desired color temperature!

MOTION SENSOR PRE-PROGRAMMED SETTINGS

Detection Area	Hold Time	Daylight Threshold	Stand-by Period	Stand-by Dimming Level	Mode Selection
100%	5 Minutes	Disable	0 Second	10%	On

●	100%
○	50%

Detection area

Sets the size of the detection area. **Default = 100%**

●	0s
●	1min
○	5min
○	+ ∞

Stand-by period

The time period that the fixture will remain at the standby level before turning off. The standby period starts after the hold period. **Default = 0 Second**

●	30s
●	1min
○	2min
○	5min

Hold-time

The time period that the fixture will remain at full after motion is no longer detected. **Default = 5 Min**

●	10%
○	30%

Stand-by dimming level

The light level that the fixture goes to after the hold time is complete. **Default = 10%**

●	Disable
○	50lux

Daylight threshold

The light level above which the fixture will turn off and stay off regardless of motion. Typically, only used in outdoor or other locations with substantial natural light. **Default = Disable**

●	ON
○	OFF

Mode selection

The setting to enable or disable the sensor. **Mode Selection = On**
